

DAY 1

SOFT TISSUE DAY - OCT 10th

Soft Tissue Grafting for Teeth and Implants: The Harvest - Transplant - Suture Course

Leaving the Comfort Zone to Step-Up Your Soft Tissue Management

The Harvest - Transplant - Suture course explores the driving force of soft tissue grafting in modern aesthetical procedures in teeth and implants. The participants are briefed with the latest knowledge on the underlying cellular mechanisms, detailed microanatomy and tissue differences, altogether with an insight into healing patterns crucial for grafting success.

Theoretical:

- Understanding the biology of wound repair
- The advantages of microsutures in grafting and mucogingival surgery
- Subepithelial, de-epithelialized and pediculated connective tissue grafts around teeth and implants

Practical:

- "The Six-Zero Standard and Beyond" switch in sutures
- Harvesting and transplanting subepithelial and de-epithelialized connective tissue grafts from various sources

This section challenges you with three take-home skills:

- 1 Monofilament Microstitching Technique
- 2 Harvesting Soft Tissue Grafts
- 3 Developing the Ridge Profile

MASTERING THE 2-DAY CHALLENGE

ASST. PROF. JURAJ BROZOVIĆ & THE TEAM

HANDS-ON DAYS - 10th AND 11th OCTOBER 2025

Limited number of seats
available!

Book your seat:

DAY 2

BONE DAY - OCT 11th

Predictable Bone Grafting & Extreme Flap Advancement

The Point of No-Return for Flap Management and Bone Grafting

The second part deals with predictable bone grafting techniques and flap structure in detail. This course leads you step-by-step through guided bone regeneration (GBR) and state-of-the-art flap advancement and closure. Tips and tricks are provided to avoid common procedural mistakes leading to failures.

Theoretical:

- Understanding the flap layers and dimensions
- "This will save your graft"
- Clear guidelines to a predictable GBR

Practical:

- Guided bone regeneration
- The periosteal cut and flap dissection
- Safe and passive closure using micro-sutures

Symposium venue:

Radisson Blu Resort & Spa,
Split, Croatia

An exclusive event
organized by RESORBA®,
Nürnberg, Germany

www.resorba.com

This section challenges you with another two take-home skills:

- 1 Stability in Guided Bone Regeneration
- 2 The Five-Step Tissue Elongation: Extreme Flap Advancement

**Asst. Prof. Juraj Brozović, DMD, PhD
Specialist in Oral Surgery**

Juraj Brozović graduated out of School of Dental Medicine, University of Zagreb in 2009 at the top of his class. After continuing with the postgraduate doctoral study in 2009, his doctoral research titled "Analysis of the load transfer properties of different implant-abutment assemblies by digital holographic interferometry" was carried out at the Institute of Physics (Zagreb, Croatia), in collaboration with the Institute for Thermal Turbomachinery and Machine Dynamics (Graz, Austria), introducing a novel method in the field of dental implantology. He defended his PhD thesis in 2014. In 2012 he began his full-time specialist training in oral surgery at the Zagreb Clinical Hospital Center. After passing the specialist exam in 2016, he was awarded the position of scientific associate at Zagreb School of Dental Medicine. As assistant professor in Oral Surgery, he is currently Head of Dental Implantology course at the Faculty of Dental Medicine and Health, University of Osijek. He is an international lecturer on microsurgical approach, soft and hard tissue grafting procedures, and implant dentistry, authoring a de Juraj is an Executive Board member of Croatian Society for Oral Surgery, member of Croatian Society for Dental Implantology, Croatian Medical Association and Swiss Society for Oral Implantology (SGI). He was awarded multiple awards for the achievements in his studies and research.

HANDS-ON DAYS

DESCRIPTION & TARGETS

"The Art of Suture and Graft: An AMS RESORBA® Masterclass" is designed as a two-day intensive hands-on course on defect repairs.

In the first module, The Harvest - Transplant - Suture Course explores the driving force of soft tissue grafting in modern aesthetical procedures in teeth and implants. The participants are briefed with the latest knowledge on the underlying cellular mechanism, detailed micro-anatomy and tissue differences, altogether with an insight into healing pattern crucial for grafting success.

The second module, Predictable Bone Grafting in Implant Dentistry, provides participants with clinical and scientific background on ridge defects, altogether with understanding of different grafting procedures deemed predictable for an in-office use. Detailed surgical steps of Guided Bone Regeneration (GBR) are demonstrated, followed by participants carrying out the procedure to regenerate a contained defect and achieve soft tissue closure by microsurgical means.

The seminars will be held in English.

Dental Courses Split

PROGRAMME

DAY 1

09:00 – 12:00

Theoretical

- Understanding the Biology of Wound Healing
- An Update on Sutures & Collagens
- Conversion to Microsurgery
- An Upgrade to Soft Tissue Management

Lunch at hotel

13:00 – 16:00

Take-Home Skills

- Cutting-edge microsuturing with monofilaments
- Harvesting subepithelial connective tissue grafts from various sources
- Obtaining de-epithelialized connective tissue grafts
- Management of palatal bleeding
- Partial-thickness flaps and coronal advancement
- Securing the graft around teeth and implants

19:00

Common dinner in town

DAY 2

09:00 – 12:00

Theoretical

- Four Pillars of Bone Grafting
- The New Concepts on Membranes, Bone Substitutes and Vascularity
- Clear Guidelines to Predictable Guided Bone Regeneration
- An introduction to Soft Tissue Grafting

Lunch at hotel

13:00 – 16:00

Take-Home Skills

- Guided Bone Regeneration with Defect Stabilization
- Performing the Five-Step Passive Flap Closure Protocol

19:00

Handing out Certificates

Book your seat:

REGISTRATION

COSTS

1200,- Euro per person

Not including flights, hotel and transfers

INCLUDING:

- 2 day course with hands-on
- Lunch and one common dinner in Split
- Special discount code "CONE25" for Hotel Radisson Blu, Split

Register here (limited admission)

TERMS & CONDITIONS

Compliance with delegate registration and Cancellation Policy for the Seminar.

Registration

Course registration must be made using the online registration form, by e-mail or by telephone. By completing the registration process you agree to these Terms and Conditions.

Once your booking is accepted you will receive an email confirmation of registration confirming the seminar details and the fees due. Once your booking is confirmed your registration is binding.

Payment of course fees

An invoice will be sent to you eight weeks before the seminar takes place. The payment date stated on the invoice is binding. Non-payment of the course fee does not constitute cancellation.

Reminder fees

If the invoice is not paid within 30 days, a reminder will be sent. A reminder fee of Euro 25.00 will be charged for a second reminder.

Cancellation and fees

To cancel a confirmed registration you must email to infomail@resorba.com. The following fees will apply:

1. Up to 6 weeks before the date of the seminar: no cancellation fee
2. Anything less than 4 weeks notification: 100% of registration costs

Postponement or cancellation of a Seminar

RESORBA® is not responsible for any loss or damage as a result of an alteration, postponement or cancellation of the Seminar or your attendance at the Seminar and, shall assume no responsibility whatsoever in the event this is due to a fortuitous event, Act of God, unanticipated incidence or any other event that renders presentation of this forum impracticable or unfeasible. For purposes of this clause,

a fortuitous event shall include, but not be limited to war, fire, extreme, labour strike, weather or other emergency. RESORBA® will endeavour to adhere to any proposed agenda, but RESORBA® reserves the right to alter the agenda (i.e. locality, time, date, events etc.), if judged essential and in the best interest of the Seminar. In the event that the Seminar is postponed, for any basis, including but not limited to Force Majeure we will inform the delegate immediately and give the delegate the option to transfer their registration to the alternative date. If hotel accommodation is fully booked RESORBA® reserves the right to allocate a suitable nearby hotel for the delegate, if applicable, all attendance is subject to acceptance.

Data

The data you provide may also be used for the purposes of marketing the Seminar you have registered for or future events. The data you provide will not be used by any third party or sold and will only be held for use by RESORBA® and any of our Seminar sponsors. Should you wish for your data to be withheld please email us at infomail@resorba.com. Photos & Videos taken at the event may be used for internal or external marketing purposes by RESORBA® and by attending the Seminar you acknowledge that you may appear on web/video/media content.

Miscellaneous

You, the delegate agree to hold harmless RESORBA® for any injury or death that may occur at the Seminar. RESORBA® is not responsible for the behaviour of the delegates while at the Seminar, and is also not accountable for any costs, damages and/or expenses connected with the delegate's transportation to/from the forum or anything relating to accommodations third party services in connection with the Seminar. RESORBA® may eject, cancel or postpone any delegate attendance who is not behaving appropriately on the run up to or during the Seminar, at which point the full cancellation charges will be incurred by the delegate including any missed meetings.
