→ EXTRACTION, REGENERATION,
PERI-IMPLANTITIS:
THE SURGEON'S JOURNEY?

New concepts for extraction and implan-
tology to optimize clinical outcome

Dear Colleague,

I'm excited to personally invite you to the Mectron Spring Meeting 2026, taking place on June 19th in the unforgettable setting of Palazzo Franchetti, Venice.

Every three years, this event brings together top dental professionals from all over the world – and this time, we're zooming in on a topic that's key to successful implant treatments: tooth extraction.

Together with a panel of internationally respected experts, we'll explore the topic from every angle – starting with how to assess and optimize the patient's condition to reduce the risk of complications before the extraction. From there, we'll move into atraumatic extraction techniques (even for third molars!) made possible with PIEZOSURGERY®, and then dive into clinical strategies for bone preservation and regeneration, including new approaches to managing peri-implantitis.

Whether you're looking to sharpen your clinical skills or pick up practical tools you can apply right away, this will be a day full of value, science, and inspiration.

I really hope to see you there — in Venice, in June.

Warm regards,

Tomaso Vercellotti M.D., D.D.S.

On behalf of Mectron Education

Extraction, regeneration, peri-implantitis: the surgeon's journey?

New concepts for extraction and implantology to optimize clinical outcome

09:00 - 09:15 Welcome

Tomaso Vercellotti

09:15 - 10:15 The osteoimmunology revolution : how to predict the success of our surgeries

Joseph Choukroun

10:15 - 11:15 Innovative atraumatic piezoelectric extraction to preserve alveolar bone

Tomaso Vercellotti

11:15 - 11:45 Coffee break

11:45 - 12:15 What every implant clinician must know for flawless immediate and delayed implant placement

Mauricio Araujo

12:15 - 13:00 Minimally traumatic extraction, socket debridement and Guided Open Wound Healing to avoid cavitations for predictable ridge preservation

Shahram Ghanaati

13:00 - 14:00 Lunch break

14:00 - 15:00 Atraumatic third molar extraction

Jason Motta-Jones

15:00 - 15:30 Coffee break

15:30 - 16:30 Peri-implantitis uncovered: navigating diagnosis, treatment, and maintenance innovations

Mauricio Araujo

16:30 - 17:00 New perspective and round table discussion

All speakers

17:00 Come together

Tomaso Vercellotti

Joseph Choukroun

Mauricio Araujo

Shahram Ghanaati

Jason Motta Jones

19th JUNE, VENICE

Palazzo Franchetti, Venice, Italy

→ DATE Friday the 19th of June 2026

→ PARTICIPANTS

Limited attendance max. 170

→ REGISTRATION FEE

Early fee until February 28th 2026: € 390,00

Fee after February 28th 2026: € 490,00

→ LANGUAGE English and Italian

→ ORGANIZATION/REGISTRATION
